MAYOR'S ADMINISTRATORS. Clause in New Charter Raises Some Discussion.

In the new charter which has been prepared under the supervision of the Mayor there is a section that is raising some discussion. It provides that there shall be established a general administrative board consisting of the Mayor, the Computedles and the Corporation Courses. Comptroller and the Corporation Counsel. and the duties of the board are thus described in the proposed charter:

"The board shall regularly determine and have exclusive control over all questions of the jurisdiction, functions, duties and responsibilities of all departments, boards, offices, bureaus and commissions in the city or any borough or any county to the city or any borough or any county to Mr. Mitchel in transmitting your challenge to me. According to Mayor Gaynor the purpose of the clause is to centralize a lot of the work which is now done by the bureaus and commissions, but he added that the provision was merely a tentative suggestion and that the question of modifying this and other clauses in the charter would be details which would have to be determined by the Legislature.

David P. Kimball of Boston is approximately \$1,000. It is the largest granted by any college for women in this country. According to its terms it may be used for study abroad or ia any American college or university or for private study and research.

The Alice Freeman Palmer memorial fellowship, given by the Association of College Alumne in memory of Welleslev's second president, is awarded to Dr. Anna Youngman, instructor in the economics department in Wellesley College. She will spend the next academic year in Germany in the study of recent development in land taxation.
